

How are 2026 industry premium rates set?

The Saskatchewan WCB sets industry premium rates annually. The rate setting process ensures today's employers pay for the costs of today's claims.

Step 1: Industry classification

- Employers are grouped into industry rate codes based on their primary business activity.
- This forms the WCB's classification system, which has 50 industry rate codes.
- The collective experience of all employers in each industry rate code determines the industry premium rate.
- All employers in the same rate code start with the same industry premium rate.

Step 2: Industry premium rates

- An actuarial rate model is used to determine annual industry premium rates.
- Expected claim costs are projected for the upcoming year.
- Industry premium rate = costs/payroll.
- Premiums cover all current and future costs for claims that occur during the year.

Step 3: Experience rating

- The experience rating program adjusts the industry premium rate based on an employer's individual claims experience.
- Employers can receive a discount or pay a surcharge depending on their claims experience.
- Reducing the number and cost of claims through injury prevention and workplace safety can improve your experience rating and reduce the WCB premiums you pay.

Online services reminder: in early December 2025, you will be able to view your 2026 industry rate, including your experience rating, through your WCB online account only. Sign up for your WCB online account by visiting wcb.sask.com.

Updated payroll forecasts

Assessable payroll (\$ millions)	Used in 2025 rate setting	Updated 2025 projection	2026 projection
A31 rate code payroll	\$191.62	\$183.34	\$187.01

The overall increase to the model premium rate for A31 is the result of decreasing payroll forecasted for 2026, which is combined with increasing claims and related administration costs. The largest change in claims in dollar terms is related to short-term disability and vocational rehabilitation costs. Recognizing the WCB's strong funded position, the A31 premium rate has been reduced by an additional three cents for 2026.
