Classification of industries

The Saskatchewan Workers' Compensation Board (WCB) uses 10 rate classes to determine employer premiums.

| Class | Industry description |
|---------|---------------------------------|
| Class A | Agriculture |
| Class B | Building Construction |
| Class C | Commodity - Wholesale - Retail |
| Class D | Development - Mineral Resources |
| Class G | Government and Municipal |
| Class M | Manufacturing and Processing |
| Class R | Road Construction |
| Class S | Service Industry |
| Class T | Transportation, Warehousing |
| Class U | Utility Operations |

These classes are made up of 50 rate codes. Every year, the WCB sets premium rates for 50 industry group codes. We group similar employers into rate codes based on the kind of work they do. These groups pay the same industry premium rate.

A rate code includes the rate class followed by a two-digit rate code.

Premium assessment rates

Effective Jan. 1, 2026

Rate per \$100 of payroll

Employers are classified by industry into a five-digit code, made up of three digits for the rate code and two digits for the subcode.

The Act cited in this booklet refers to [The Saskatchewan Workers' Compensation Act, 2013.](#)
